

About Leslie

Leslie Kerby is a New York based interdisciplinary artist. Kerby's work focuses on the life of social narrative and explores how it changes when experienced personally and collectively. Echoing the vast changes of her subject matter, she employs collage, drawing, painting, printmaking and video animation in order to capture how individuals use identity as a form of cultural currency.

Beyond her personal practice, Kerby also acts as a guest curator, most frequently with Project: ArtSpace, and as member of the Contemporary Art Advisory Council at BRIC Arts | Media and Executive Board at Norte Maar for Collaborative Projects in the Arts, both in Brooklyn.
